UK Argo Update

Presented by : Matt Donnelly, BODC (matdon@bodc.ac.uk)

Progress:

- UK Argo SAGE workshop in December 2019 focused on O_2 and pH (NOC, BODC, PML)
- APF11i development focus for past year (BODC, NOC)
- Improvements to BGC sensor metadata, especially O_2 and pH (BODC)
- Development of BBP RT QC tests (Giorgio, PML)
- Uncertainty estimates for BBP (Giorgio, PML)

Plans for coming year:

- Complete infrastructure agnostic BGC derivation toolbox
- Delivery BGC data in v3.1 B-files
- Develop BGC RT QC toolbox
- Develop oxygen and pH DMQC procedures as part of EuroArgo RISE

*** Want to work in collaboration on toolboxes ***
