	Action	Responsibility	Status
1	Write letter of thanks to local hosts Denis Gilbert, Jim Hanlon, Marlon Lewis, Cheryl Evans-Crowell	AST co-chairs	
2	H. Freeland to email float manufacturers and suggest that they make energy budget simulator software available	H. Freeland, Manufacturers	
3	AST can help manufacturers organize technical workshops around sensors/float types/etc. If interested, contact an AST member.	Manufacturers	
4	Circulate follow up email to manufacturers who attended AST-15 confirming offer to help organize technical workshops. Alert them to next Argo Science Workshop.	AST co-chairs	
5	Update technical mailing list through the AIC as a way to communicate with manufacturers	M. Belbeoch	
6	Identify AST members to become Wikipedia editors to translate Argo Wikipedia page into non-English languages.	T. Suga B. Klein L. Zenghong Euro-Argo	
7	M. Belbeoch, H. Freeland, M. Scanderbeg to investigate holding an Educational Outreach Workshop in conjunction with the AST- 16 meeting in Brest, France	M. Belbeoch H. Freeland M. Scanderbeg	
8	Ask AST members to ensure their country has an active Argo focal point	AST members	
9	Pls consider using M. Belbeoch's text file format to update deployment plans	Pls	
10	S. Wijffels to work with M. Scanderbeg and M. Belbeoch on some simple changes to the existing Status Maps. Changes might include offering two plots – one for Original Argo and one for Global Argo.	S. Wijffels M. Scanderbeg M. Belbeoch	
11	If needed, H. Freeland to work with IOC, WMO, CLS to reconcile AIC finances	H. Freeland	
12	Ask CCHDO/NODC/Coriolis to include CTD data in the reference data base only if it was calibrated with bottle data.	CCHDO/NODC/ CORIOLIS	
13	CCHDO requests feedback on known cruises to track down as well as areas where DMQC operators need more recent data	CCHDO/AST members/ DMQC operators	
14	When recalibrated CTD data becomes available, replace it in the reference database.	CCHDO/NODC/ CORIOLIS	
15	Ask DACs to look at cycles recovered by J.P. Rannou during his work on ANDRO and reconcile with their files. Report progress at ADMT-15.	J.P. Rannou DACs	
16	Compile list of WMO numbers for floats with anomalous behavior in their traj files and distribute to DACs for further review.	M. Scanderbeg	
17	Ask ADMT to coordinate forming a working group to develop and document a delayed mode process for traj files	ADMT	
18	Ask I. Yashayaev to work with the NA-ARC to relay data quality assessment to DACs	I. Yashayaev G. Maze	
19	Put education lecture given by H. Freeland at PICES summer school on the educational section of the AST website	M. Scanderbeg	
20	Ask M. Belbeoch to put float lifetime statistics online by float	M. Belbeoch	

	type – including only Original Mission floats and the actual	
	number of floats in addition to percentages. Consider	
	separating APEX floats by alkaline and lithium batteries	
21	At AST-16 report on progress in testing new sensors including	AST members
	RBR, SBE61, SBE41 below 2000m	
22	S. Wijffels, S. Pouliquen to work on approach that is best to	S. Wijffels
	indicate to researchers that the data from Deep Argo floats	S. Pouliquen
	below 2000m may not be acceptable for climate research.	
00	Circulate idea to AST & ADMT for approval.	O W
23	Collect independent data on the quality of CTD pressure	S. Wijffels
	calibration, analyze it, write it up, and post on various Argo	S. Riser
24	webpages	C. Dinor
24	S. Riser and G. Maze to draft recommendations on a global	S. Riser G. Maze
25	Deep Argo design target.	
25 26	Ravi to report on impact studies in Indian Ocean	Ravi
26	Investigate utility of task teams for Argo enhancements and what the AST would ask these task teams to do and how they	Bio-Argo: H. Claustre
	would interact with the AST. Create a Terms of	Deep Argo: S.
	Reference/expectations for these task teams.	Riser/G. Maze
	Neterence/expectations for these task teams.	Marginal Seas:
		P-M Poulain
		WBC: B. Qiu, T.
		Suga, D. Gilbert,
		P. Robbins.
		High lat: B Klein
		can ask for a
		contact/SOOS for
		Antarctic.
27	Ask GODAE OceanView for a list of models that are assimilating	M. Scanderbeg
	Argo data to update the operational use section of the AST	P-Y LeTraon
	website	
28	Advertise Argo DOIs among user groups and on Argo websites	AST members
		M. Scanderbeg
29	H. Freeland and B. King to investigate an offer from GO-SHIP to	H. Freeland
	hold a joint Science Workshop	B. King
30	Ask for AST members to look at NA-ARC API & ask for	AST members
	scientists and technical people within Argo to go to May	M. Belbeoch
	workshop to work on this. M. Belbeoch to circulate information	
24	on the workshop.	M Polhooph
31	Ask for update on status of API at next AST meeting	M. Belbeoch,
		S. Diggs G. Maze
32	H. Freeland and S. Riser to write first draft of article for Nature	H. Freeland
32	Climate Change to circulate among AST	S. Riser
33	Give a GOOS webinar on the future evolution of Argo	S. Wijffels
	Sivo a 3300 Wobinal on the fatale evolution of Argo	B. King
34	Add Mon ocean et Moi website to educational section of the	M. Scanderbeg
	AST website	
35	B. King, Argo Technical Coordinator and S. Pouliquen to work	M. Belbeoch
	out how to make Argo indices quality plots, how frequently to	B. King
l	Tarina is mane and a mane quanty proto, not in equality to	· · · · · · · · · · · · · · · · · ·

	make them and where they will be stored.	S. Pouliquen	
36	Forward other suggestions for data quality indices to B. King for inclusion in the list.	AST members B. King
