AN AGU JOURNAL

**Aims and Scope.** *Geophysical Research Letters* publishes high-impact, innovative, and timely research on major scientific advances in all the major geoscience disciplines. Papers are communications-length articles and should have broad and immediate implications in their discipline or across the geosciences. GRL maintains the fastest turn-around of all high-impact publications in the geosciences and works closely with authors to ensure broad visibility of top papers.

**AGU Editorial Team.** For assistance with submitted manuscripts, file specifications, or AGU publication policy please contact [grlonline@agu.org](mailto:grlonline@agu.org).

For submission instructions or to submit a manuscript visit: <http://grl-submit.agu.org>.

The journal to which you are submitting your manuscript employs a plagiarism detection system. By submitting your manuscript to this journal you accept that your manuscript may be screened for plagiarism against previously published works.

*Geophysical Research Letters* accepts articles for Open Access publication. Please visit <http://olabout.wiley.com/WileyCDA/Section/id-406241.html> for further information about OnlineOpen.

**Publication Charges.** The publication charge income received for *Geophysical Research Letters* helps support rapid publication, allows more articles per volume, makes possible the low subscription rates, and supports many of AGU's scientific and outreach activities. Publication charge information can be found here: <http://publications.agu.org/author-resource-center/>.

To encourage papers to be written in a concise fashion, there is an excess length fee. For *Geophysical Research Letters* the fee is assessed only on the equivalent of more than 12 publication units. The excess length fee does not apply to review articles, and the editor may waive the fee on a limited number of concisely written papers that merit being longer. There is no charge for color in any format.
